

The following notice was mailed to affected property owners along the 395 project corridor earlier this month.

If you received the letter and have additional questions, or otherwise have any questions about work in your community, even if project crews do not need to access your property, please feel free to contact us:

Re: VDOT Project 0395-969-205, P-101, C-501
I-395 Express Lanes Project
Fairfax and Arlington Counties, City of Alexandria Virginia
UPC 108313

Dear Property Owner,

This letter of intent to enter your property is being sent to you pursuant to Section 33.2-1011 of the Code of Virginia. The Virginia Department of Transportation (VDOT) is in the early stages of developing the captioned project and will soon be working in your neighborhood.

Please be advised that VDOT employees or consultants may need to enter your property to perform some or all of the following investigative tasks: locate property lines and utilities; locate and review physical features and existing conditions; take photographs; talk to property owners; verify property tax information; perform environmental resource surveys; investigate potential environmental impacts; and conducts soil testing and sampling, including, but not limited to shovel tests, soil samples and borings.

Should soil borings or shovel tests be required, every effort will be made to minimize the disturbance to your property and reduce the time spent on your property. All holes will be backfilled and every effort will be made to return the surface to the same condition it was before our work began. If borings are required, approximately 30 days after completion of the borings, the borehole locations will be inspected for settlement and necessary repairs will be made, if required.

This investigative work does not indicate that improvements across your property are imminent or that a decision on an improvement has been made. This work is simply for the purpose of

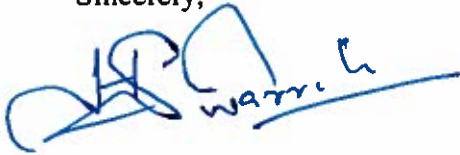

I-395 Express Lanes Project

gathering data for the decision making process. Please watch for notices of public meetings or willingness to hold a meeting about this project. In the event that the transportation improvement does affect your property, a VDOT representative will personally contact you.

VDOT anticipates that surveyors and engineers will be performing this work intermittently between approximately March 25, 2017 and June 25, 2017. Should there be any need to further access your property after this time, you will be contacted either in person or by mail. If you require advance notice for access to your property, please contact the Project Manager listed below prior to the dates provided above so we can make necessary adjustments to the field schedule.

If you have any knowledge of cemeteries, easements, or homeowner installed utilities that are not recorded in your Locality's public records or items of interest that may affect the improvements in your area or have any questions, please contact VDOT's Project Manager, Mr. Paul Nishimoto at Paul.Nishimoto@VDOT.Virginia.gov by phone 703-259-2362 or HS.Warraich@VDOT.Virginia.gov by phone at 703-691-6740.

Sincerely,

A handwritten signature in blue ink, appearing to read "H.S. Charlie Warraich". The signature is stylized and includes a horizontal line underneath the name.

H.S. Charlie Warraich, P.E.
